

SUNWAY

INT'L BUSINESS SCHOOL

Programme Name: BCS HONS

Course Code: CSC 2515

Course Name: Object Oriented Programming

Assignment / Lab Sheet / Project / Case Study No. 1

Date of Submission: 12/6/2020

Submitted By:

Student Name: **Dipesh Tha Shrestha**

Submitted To:

Faculty Name: **Som Prasad Shrestha**

IUKL ID: **041902900028**

Department: **LMS**

Semester: **Third Semester**

Intake: **September 2019**

1. ans:

```
import java.util.Scanner; public class
HintGame{ public static void
main(String[]args){
System.out.println("the game is about choosing the right number according to the hints given"); int c=0;
int min = 0; int max = 100; for(int i=0; i<10; i++){
System.out.println("choose any number between 1 to 100 according to the hints given");

        double a = Math.random()*(max-min+1) +min;

        if(a<50){

System.out.println("hint:lower");} else{System.out.println("hint:higher");

        }

Scanner sc = new Scanner(System.in); int n =

sc.nextInt(); if(n==a){

c++;

System.out.println("your guess is correct");
```

```
        }  
        else{      System.out.println("your guess is not correct");  
    }  
  
    if(c>=3){  
  
        System.out.println("brilliant played");  
    }  
    else{System.out.println("well played");  
    }  
}}
```

2. ans:

The output of the following is illustrated below:

6

7

6

8

7

6

3 ans: the output is illustrated in next line: The output of the code is : 2 stars3

stars 466 stars stars

4 ans:

```
import java.util.Scanner; public class
FindEven{ public static void
main(String[]args){
Scanner s = new Scanner(System.in); System.out.println("enter
size of integers to process"); int sum=0; String mes; int n =
s.nextInt();
System.out.println("enter" +n+ "integers"); int ar[]
= new int[n]; for(int i= 0; i<n; i++){ ar[i]= s.nextInt();
```

```
}

public static int evenNumbers(int[] pr){ for(int i
=0; i<n; i++){ int no = ar[i];

if(no%2==0){ sum=
sum+no;
} else{ continue;
}
}

return("the sum of total even numbers is" + sum);
}

mes = evenNumbers(ar);

System.out.println(mes);

}

}
```
